

Cherished (Glitch Hop Remix)

This ? This is not a photo. During sex, on her sixteenth birthday, I asked her why her gums are unhealthy, but she is not the type to think of childbirth.

I think her smile is off-putting.

I suggested she disguise the steel-blue fingers radiating from the rest of her shiny red dried remains but she is easily distracted and borrowed my bathroom mirror.

Silver blood dances on one eye.  
it looks fine.
